

Summer Countdown 1

Begin your service with a simple Summer countdown. The crayon-colored stylings of sunshine, trees, scribbles and swirls is an ideal compliment to the easy-going soundtrack. With just a hint of steel drums, the music combines with the youthful and artsy tapestry of the visuals to create an uplifting atmosphere to welcome the congregation. You can almost feel the cool, tropical breezes.

This countdown features the displayed time under one minute without the leading zeros for a clean look.
